

Fostering Market Development of Renewable Energy Technologies and Energy Efficiency in Africa: Second Round of the Mentoring Programme

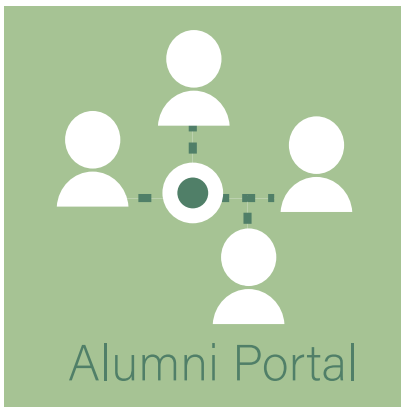

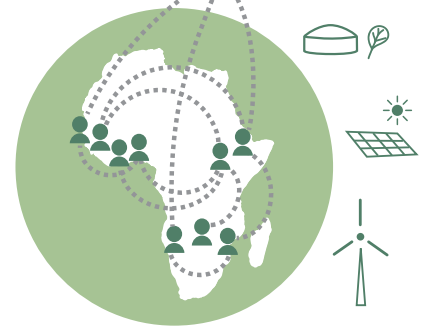

► The second round of ANSAP is here!

Apply to join this next round of our successful networking and mentoring programme. ANSAP is part of the initiative, Green People's Energy for Africa. We are looking forward to supporting our members with the development of their renewable energy technology and energy efficiency business projects. Membership in this programme is free and mentees will be able to:

- expand their green energy networks in Africa and in Germany;
- exchange and acquire knowledge from fellow mentees and alumni;
- showcase and receive support for project ideas; and
- be a part of the growing community of Green People's Energy for Africa.'
