

# Fostering market development of renewable energy technologies and energy efficiency in Africa

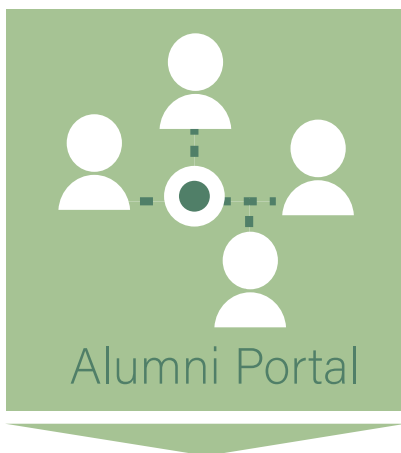

## Alumni Network and Support for African Participants (ANSAP)

ANSAP is an alumni network to support African citizens with study experience of green energy in Germany. The programme will help members in market and business development for renewable energy technology and energy efficiency projects. Apply for free membership now and you:

- can expand your green energy network in Africa and Germany
- can exchange and acquire knowledge from fellow Alumni
- will have access to an alumni portal with exclusive green energy information
- can showcase and receive support for your project ideas
- are part of a growing community of the 'Initiative Green People's Energy for Africa'

**APPLY HERE**
